

## 2008 Formula Mazda Challenge powered by World Speed Motorsports Supplemental Rules v.05.22.08 **UPDATES IN RED**

- The series will race in SCCA and NASA events for 2008. Drivers should review SCCA and NASA rules. (see below)
- Exclusive FMC testing will be available at some events. Drivers competing for points in the FMC may **ONLY** run in FMC sessions during these days or they will be ineligible for points for the following race weekend.
- Series allows the following cars to enter
  - Pro Formula Mazda (PFM)
  - Standard Formula Mazda (SFM)
  - Formula Enterprises (FE)
- PFM must comply with the Star Mazda rules & 2008 SCCA GCR with the following exceptions:
  - WSM “Club Mufflers” and the specified Supertrapps when necessary must be run.
  - Inspection holes in under-wood skid plates will not be mandatory.
  - Brake pads are to be Performance Friction (PFC-01 or **-05**) or Hawk (DT60)
  - Star Mazda Spec Fuel is mandatory
  - **For 2008 events the Star Mazda short stack is the only legal gearset**
  - 2008 updated wing package is legal for FMC after May 15<sup>th</sup> 2008
  - Goodyear Tires (Bias Ply 430s for race 1, Radial use will start once supply is available most likely race 2) - One marked set per weekend (including doubles) to be used for Qualify & Race sessions. **If you damage a tire during a qualify or race session and need to change it you can substitute the damaged tire with another tire. You must get that tire marked by an official. If you must change all four tires you will lose HALF of your finishing points from that race.**
- SFM must comply with the 2008 SCCA GCR with the following exceptions:
  - Goodyear Tires - One marked set per weekend (including doubles) to be used for Qualify & Race sessions
